## EXECUTIVE SUMMARY

---

Results-driven Full-Stack Developer and PUP Magna Cum Laude with GWA 1.29 specializing in back-end architecture and database design. Proven expertise in building multi-tenant platforms, RESTful APIs, and scalable web applications using Laravel, Next.js, and modern tech stacks. Strong foundation in database engineering, testing methodologies, and real-time system implementation. Passionate about solving complex technical problems and delivering high-quality solutions.

## PROFESSIONAL EXPERIENCE

---

Freelance Projects | Oracle Petroleum Corporation | 2026

- Oracle Client Meeting & Field Management Platform (Co-Developer – Freelance Contract): Built multi-tenant web platform featuring role-based dashboards, live GPS map tracking, meeting oversight, and real-time field activity monitoring; collaborated with 4-developer team coordinating web and mobile app integration

OJT Internship - Full-Stack Developer & QA Tester | Oracle Petroleum Corporation | 2026

- KST E-commerce (Main Developer – OJT): Built customizable product design platform with no-code admin CMS enabling non-technical staff to manage catalog, promotions, and landing pages independently
- BAGANIOIL.PH Website (Co-Developer & QA – OJT): Executed comprehensive testing ensuring live site stability and validated CMS functionality for admin users
- CRS System (Co-Developer & QA – OJT): Developed internal request management platform from scratch streamlining company-wide task tracking and workflows
- Agent Operation App (QA Tester – OJT): Built dual-platform application enabling real-time field agent tracking, activity logging, and performance monitoring for management

## OTHER PROJECTS

---

- UniQue Thesis (Main Developer): Multi-tenant queue management platform with role-based access, omnichannel notifications (email, SMS, web push), and audit logging
- TindaPOS: Full-stack retail POS with real-time inventory, role-based access, analytics using Laravel & Vue 3

## EDUCATION & CREDENTIALS

---

Bachelor of Science in Information and Technology

Polytechnic University of the Philippines | Expected Graduation: 2026 | GPA: 1.29 (Magna Cum Laude)

## SKILLS

---

### Technical Skills:

PHP, Laravel, Next.js, React.js, Vue.js, JavaScript, TypeScript, HTML/CSS, MySQL, PostgreSQL, Prisma ORM, RESTful APIs, Git, Salesforce, QA & Testing

### Soft Skills:

Communication, Problem-Solving, Teamwork, Time Management, Fast Learner, and Adaptable
